Company Description

Ilika (www.ilika.com) is a specialist in solid state batteries and the accelerated development of new functional materials using cutting-edge high throughput techniques. Ilika is best known for its Stereax solid state batteries, which it is now commercialising through its IP licensing model.

Ilika is a publicly listed company with its head office in Southampton. We offer the successful candidate a competitive package and the opportunity to be part of a world-class team using state of the art equipment in a supportive environment.

Role Description

We are currently looking to strengthen our technical team through the recruitment of a Technician with overall responsibility of the day-to-day operation and maintenance of test and manufacture equipment within Ilika's large-format battery development line.

Your main duties will include:

- Ensure and oversee a continuous and reliable production protocol and environment for the existing manufacturing and analytical tools;
- Maintain and repair the existing manufacturing and analytical tools, as well as perform calibration checks and arrange servicing
- Document the details of optimised production workflows for products of various formats;
- Help specify the potential manufacturing requirements for the further scale up of the process to larger production tools.

To be successful in this role, you will possess the following:

- Experience in a lab environment or high-tech assembly line (desirable experience includes ink printing/casting, handling chemicals, monitoring lines/quality control and equipment/lab maintenance);
- The ability to clearly and concisely document workflow protocols related to a manufacturing process;
- Good attention to detail;
- Flexible approach to tasks;
- Team player and able to work using own initiative;
- Good interpersonal skills and ability to communicate at all levels;
