

Ilika revolutionises battery technology for the Internet of Things

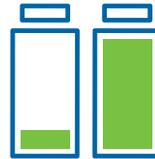

Challenges for IoT Energy Source

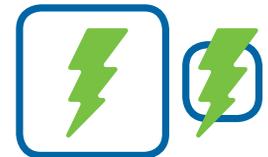

- Cost
- No cabling
- Availability
- Trickle charging
- Maintenance free
- Ecological implications
- Limited energy resources
- Small size (thickness and footprint)

Why use Solid State Batteries?

(compared to CR2032 coin cells)

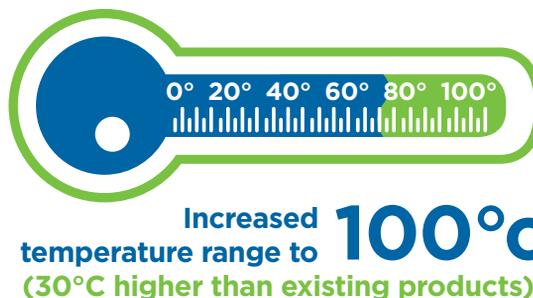

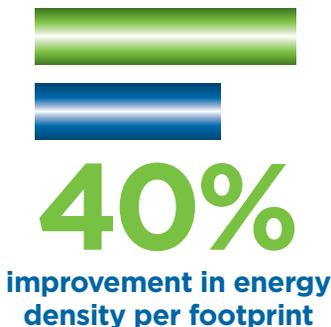

4x longer lifespan
(StereaxTM - lasts up to ten years)

50% of the volume
for the SAME POWER

Benefits of StereaxTM M250 solid state battery

(compared to alternative SSBs)

No free Lithium
